

# FIRE PUMP

This proven range of pumps provides quality, performance, and a range of models to suit every application.

Every model features rugged machined cast iron replaceable inlet and outlet ports for long life. Light weight is assured with an aluminum body. The combination of a tough cast iron diffuser and aluminum or cast iron impeller gives excellent abrasion resistance.

The 3PKA pump is fitted with a 3 way outlet head (two 1" and one 1 1/2") this pump is ideally suited to spotting and filling applications. Coupled with a Honda 5.5HP oil alert engine, the standard pump delivers a maximum of 5500 gph (90 GPM) and a maximum head of 235ft.(100 PSI)

NO PLASTIC PARTS IN THIS PUMP !!
